Crib Storage

To clean your crib, use a soft cloth with a non-toxic cleaner and wipe dry immediately. To avoid scratches or other damages, do not use abrasive chemicals or materials.

Please store your crib and conversion kits in temperate environments; they should not be near radiators, heaters, humidifiers or air-conditioning vents. Any dramatic changes such as extreme heat, cold, dampness or dryness may cause shrinkage or swelling of the wood. Placing the crib in direct sunlight may affect the color of the materials over time.

Entretien et Stockage

Pour nettoyer votre lit bébé, utilisez un chiffon doux avec un nettoyant non toxique et essuyez-le immédiatement. Pour éviter les rayures ou autres dommages, n'utilisez pas de produits chimiques abrasifs ou de matériaux abrasifs.

Veuillez ranger votre lit bébé et les kits de conversion dans des environnements tempérés; ils ne doivent pas être près des radiateurs, des chauffages, des humidificateurs ou des bouches de ventilation de climatisation. Tout changement dramatique tel que la chaleur extrême, le froid, l'humidité ou la sécheresse peut provoquer un rétrécissement ou un gonflement du bois. Placer le lit bébé en plein soleil peut affecter la couleur des matériaux avec le temps.
